Tom,
The City is preparing applications for I-Job funding. Is there a draft cost estimate that details the numbers for Birdland?

Thanks,
Pam

Hi Pam,

As discussed last week, we've got Cost Engineering working on refining these numbers, but the rough estimates are, in total project costs:

Birdland - \$8,174,505
Birdland Recreation - \$183,768
Central Place - \$7,182,273
Downtown - \$974,691

I don't think we've nailed down the cost of any Central Place betterments, but those wouldn't be included in the cost-shared project anyway. Also, McHenry Trail and borrow may have an impact on the estimate. At present, though, I wouldn't expect it to move more than a few percent in either direction from the \$16.5M total.

-Tom

Can you give me a breakdown of the project elements that make up the \$16.5 million?

Birdland - \$

Birdland recreation - \$

Central Place - \$

Downtown - \$

Others?

If I have the breakdown, I can't seem to find it.

Thanks!

Pam
